Letter of Recommendation

Jereh Oilfield Services (Kazakhstan) Co., Ltd. is providing whole package cementing services to our company in Aktay oilfield, Kyzylorda. Jereh's surface operation quality is 100% qualified and cementing quality is very good. Jereh has a combined advantage of providing advanced cementing equipment, professional personnel, high level of technology and good team management and quality. Meantime, Jereh is capable of providing cement slurry tests, designing cement slurry recipes and providing cement slurry system which can increase cementing quality for various types of wells. Jereh is capable of providing whole package of cementing services and effectively increasing cementing quality. It is a professional cementing team which can complete various cementing jobs and its cementing technology has reached the advanced level within the industry.

It was a pleasure working with Jereh Oilfield Services (Kazakhstan) Co., Ltd. and we would like to recommend them to any company in the industry.

Yours Sincerely

CAYTC OIL
